Match Group Reports First Quarter 2018 Results

Dallas, TX—May 8, 2018—Match Group (NASDAQ: MTCH) reported first quarter 2018 financial results today and separately released an investor presentation, which is available on the Investor Relations section of its website at <http://ir.mtch.com>.

“I’m glad we have everyone’s attention for our best results since our IPO,” said Mandy Ginsberg, Match Group CEO. “We continue to deliver innovative products that customers across our portfolio of brands find valuable, and we are not slowing down anytime soon. I am highly confident that our product roadmap, particularly at Tinder, will allow us to remain the clear leader in this category and deliver continued growth for Match Group shareholders.”

Q1 2018 HIGHLIGHTS

- Total Revenue grew 36% over the prior year quarter to \$407 million, the highest quarter-over-quarter revenue growth since the IPO.
- Tinder Average Subscribers were 3.5 million in Q1 2018, increasing 368,000 sequentially and 1.6 million year-over-year.
- Net earnings of \$100 million, or \$0.33 per diluted share, grew in excess of 300% over the prior year quarter, driven by strong revenue growth and excess tax benefits generated by settlements and exercises of stock-based awards.
- Operating income was \$112 million, an increase of 91% over the prior year quarter, while Adjusted EBITDA increased 60% over the prior year quarter to \$138 million.
- Operating Income and Adjusted EBITDA margins increased 7.8 and 4.9 points, respectively, as we continue to benefit from operating leverage in our business.
- Settled our intellectual property litigation against TanTan, which will result in both a redesign of their U.S. app and annual royalty payments tied to the size of their U.S. userbase, reinforcing the strength and value of our market-leading innovations.

Liquidity and Capital Resources

We net settled all stock options that were exercised and restricted stock units that vested during the three months ended March 31, 2018, utilizing \$72 million of cash to pay employee withholding taxes, and we issued 1.9 million fewer dilutive shares as a result. We also repurchased 0.8 million shares during the first quarter of 2018 and an additional 0.2 million shares in April 2018 for a total of 1 million shares, further mitigating the dilutive impact from stock-based compensation activity. A total of 5 million shares remain available under the previously announced repurchase program. As of March 31, 2018, Match Group had 276.6 million common and class B common shares outstanding.

As of March 31, 2018, the Company had \$288 million in cash and cash equivalents and \$1.3 billion of long-term debt. The Company has a \$500 million revolving credit facility, which was undrawn as of March 31, 2018 and currently remains undrawn.

Match Group's trailing twelve-month leverage as of March 31, 2018 is 2.4x on a gross basis and 1.9x on a net basis.

As of March 31, 2018, IAC's economic ownership interest and voting interest in Match Group were 80.9% and 97.6%, respectively.

Income Taxes

In the first quarter of 2018, Match Group recorded a GAAP income tax benefit of \$12.5 million, which primarily relates to excess tax benefits generated by the settlement and exercise of stock-based awards of \$34.3 million. Excluding these benefits, the effective tax rate was 25%.

Conference Call

Match Group will audiocast a conference call to answer questions regarding its first quarter financial results on Wednesday, May 9, 2018 at 8:30 a.m. Eastern Time. This call will include the disclosure of certain information, including forward-looking information, which may be material to an investor's understanding of Match Group's business. The live audiocast will be open to the public, and the investor presentation reviewing the results has been posted, on Match Group's investor relations website at <http://ir.mtch.com>.

For GAAP diluted EPS purposes, RSUs, including performance-based RSUs and market-based awards to the extent the applicable performance or market condition(s) have been met, are included on a treasury method basis. For Adjusted EPS purposes, the impact of RSUs on shares outstanding is based on the weighted average number of RSUs outstanding, including performance-based and market-based RSUs outstanding that the Company believes are probable of vesting.

The impact of income taxes adjusts for items excluded from Adjusted Net Income, including income tax deductions from the exercise or vesting of equity awards.

DILUTIVE SECURITIES

Match Group has various tranches of dilutive securities. The table below details these securities and their potentially dilutive impact (shares in millions; rounding differences may occur).

	As of 5/4/2018
Share Price	\$34.82
Absolute Shares	277.6
<u>Vested Options and Awards</u>	
Match Group Options	2.8
IAC Equity Awards	0.3
Total Dilution - Vested Options and Awards	3.1
<u>Unvested Options and Awards</u>	
Match Group Options	8.1
Match Group RSUs	2.0
Total Dilution - Unvested Options and Awards	10.1
Total Dilution	13.2
% Dilution	4.6%
Total Diluted Shares Outstanding	290.8

The dilutive securities calculation in the above table is different from GAAP dilution, which is calculated based on the treasury method. The table above is based on the following assumptions:

Options — We assume the option exercise price and the estimated income tax benefit from the tax deduction received upon the exercise of Match Group options (both vested and unvested awards) is used to repurchase Match Group shares.

RSUs — These awards are settled on a net basis, with Match Group making a cash payment on behalf of the holder equal to the amount of required tax withholdings. The dilutive effect is presented as the net number of shares that would be issued upon vesting assuming a withholding tax rate of 50%. We also assume the estimated income tax benefit from the tax deduction received upon the vesting of Match Group RSUs is used to repurchase Match Group shares.

IAC Equity Awards — IAC Equity awards represent options and market-based restricted stock units denominated in the shares of IAC that have been issued to employees of Match Group. Upon the exercise or vesting of IAC Equity awards, IAC will settle the awards with shares of IAC, and Match Group will issue additional shares of Match Group to IAC as reimbursement. We assume the estimated income tax benefit from the tax deduction received upon the exercise or vesting of IAC denominated equity awards is used to repurchase Match Group shares.

PRINCIPLES OF FINANCIAL REPORTING

Match Group reports Adjusted EBITDA, Adjusted EBITDA Margin, Free Cash Flow, Adjusted Net Income, Adjusted EPS, and Revenue Excluding Foreign Exchange Effects, all of which are supplemental measures to U.S. generally accepted accounting principles (“GAAP”). The Adjusted EBITDA, Adjusted EBITDA Margin, Free Cash Flow, Adjusted Net Income, and Adjusted EPS measures are among the primary metrics by which we evaluate the performance of our business, on which our internal budget is based and by which management is compensated. Revenue Excluding Foreign Exchange Effects provides a comparable framework for assessing how our business performed without the effect of exchange rate differences when compared to prior periods. We believe that investors should have access to, and we are obligated to provide, the same set of tools that we use in analyzing our results. These non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. Match Group endeavors to compensate for the limitations of the non-GAAP measures presented by providing the comparable GAAP measures with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the non-GAAP measures. We encourage investors to examine the reconciling adjustments, which we describe below, between the GAAP and non-GAAP measures. Interim results are not necessarily indicative of the results that may be expected for a full year.

Definitions of Non-GAAP Measures

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA) is defined as operating income excluding: (1) stock-based compensation expense; (2) depreciation; and (3) acquisition-related items consisting of (i) amortization of intangible assets and impairments of goodwill and intangible assets and (ii) gains and losses recognized on changes in the fair value of contingent consideration arrangements. We believe Adjusted EBITDA is useful for analysts and investors as this measure allows a more meaningful comparison between our performance and that of our competitors. The above items are excluded from our Adjusted EBITDA measure because they are non-cash in nature. Adjusted EBITDA has certain limitations in that it does not take into account the impact to our consolidated statement of operations of certain expenses.

Adjusted EBITDA Margin is defined as Adjusted EBITDA divided by revenues. We believe Adjusted EBITDA margin is useful for analysts and investors as this measure allows a more meaningful comparison between our performance and that of our competitors. Adjusted EBITDA margin has certain limitations in that it does not take into account the impact to our consolidated statement of operations of certain expenses.

Free Cash Flow is defined as net cash provided by operating activities from continuing operations, less capital expenditures. We believe Free Cash Flow is useful to investors because it represents the cash that our operating businesses generate, before taking into account non-operational cash movements. Free Cash Flow has certain limitations in that it does not represent the total increase or decrease in the cash balance for the period, nor does it represent the residual cash flow for discretionary expenditures. Therefore, we think it is important to evaluate Free Cash Flow along with our consolidated statement of cash flows.

We look at Free Cash Flow as a measure of the strength and performance of our businesses, not for valuation purposes. In our view, applying “multiples” to Free Cash Flow is inappropriate because it is subject to timing, seasonality and one-time events. We manage our business for cash and we think it is of utmost importance to maximize cash – but our primary valuation metrics are Adjusted EBITDA and Adjusted EPS.

Adjusted Net Income generally captures all items on the statement of operations that have been, or ultimately will be, settled in cash and is defined as net earnings attributable to Match Group, Inc. shareholders excluding, net of tax effects and noncontrolling interests, if applicable: (1) stock-based compensation expense, (2) acquisition-related items consisting of (i) amortization of intangibles and impairments of goodwill and intangible assets and (ii) gains and losses recognized on changes in the fair value of contingent consideration arrangements, and (3) discontinued operations, net of tax. We believe Adjusted Net Income is useful to investors because it represents Match Group’s consolidated results taking into account depreciation, which management believes is an ongoing cost of doing business, as well as other charges that are not allocated to the operating businesses such as interest expense, income

taxes and noncontrolling interests, but excluding the effects of any other non-cash expenses and discontinued operations.

Adjusted EPS is defined as Adjusted Net Income divided by fully diluted weighted average shares outstanding for Adjusted EPS purposes. We include dilution from options in accordance with the treasury stock method and include all restricted stock units (“RSUs”) in shares outstanding for Adjusted EPS, with performance-based RSUs included based on the number of shares that the Company believes are probable of vesting. This differs from the GAAP method for including RSUs, which are treated on a treasury method, and performance-based RSUs, which are included for GAAP purposes only to the extent the applicable performance condition(s) have been met (assuming the end of the reporting period is the end of the contingency period), which increases shares outstanding for Adjusted EPS purposes. Market-based awards are included in both GAAP and Adjusted EPS only to the extent that the market condition(s) have been met (assuming the end of the reporting period is the end of the contingency period). We believe Adjusted EPS is useful to investors because it represents, on a per share basis, Match Group’s consolidated results, taking into account depreciation, which we believe is an ongoing cost of doing business, as well as other charges, which are not allocated to the operating businesses such as interest expense, income taxes and noncontrolling interests, but excluding the effects of any other non-cash expenses, and is computed in a manner that is generally consistent with management’s view of dilution. Adjusted Net Income and Adjusted EPS have the same limitations as Adjusted EBITDA. Therefore, we think it is important to evaluate these measures along with our consolidated statement of operations.

Revenue Excluding Foreign Exchange Effects is calculated by translating current period revenues using prior period exchange rates. The percentage change in Revenue Excluding Foreign Exchange Effects is calculated by determining the change in current period revenues over prior period revenues where current period revenues are translated using prior period exchange rates. We believe the impact of foreign exchange rates on Match Group, due to its global reach, may be an important factor in understanding period over period comparisons if movement in rates is significant. Since our results are reported in U.S. dollars, international revenues are favorably impacted as the U.S. dollar weakens relative to other foreign currencies, and unfavorably impacted as the U.S. dollar strengthens relative to other foreign currencies. We believe the presentation of revenue excluding foreign exchange in addition to reported revenue helps improve the ability to understand Match Group’s performance because it excludes the impact of foreign currency volatility that is not indicative of Match Group’s core operating results.

Non-Cash Expenses That Are Excluded From Our Non-GAAP Measures

Stock-based compensation expense consists principally of expense associated with the grants of stock options, RSUs, performance-based RSUs and market-based awards. These expenses are not paid in cash, and we include the related shares in our fully diluted shares outstanding using the treasury stock method; however, performance-based RSUs and market-based awards are included only to the extent the applicable performance or market condition(s) have been met (assuming the end of the reporting period is the end of the contingency period). We view the true cost of stock options, RSUs, performance-based RSUs and market-based awards as the dilution to our share base, and such awards are included in our shares outstanding for Adjusted EPS purposes as described above under the definition of Adjusted EPS. To the extent stock-based awards are settled on a net basis, the Company remits the required tax-withholding amounts from its current funds.

Depreciation is a non-cash expense relating to our property and equipment and is computed using the straight-line method to allocate the cost of depreciable assets to operations over their estimated useful lives, or, in the case of leasehold improvements, the lease term, if shorter.

Amortization of intangible assets and impairments of goodwill and intangible assets are non-cash expenses related primarily to acquisitions. At the time of an acquisition, the identifiable definite-lived intangible assets of the acquired company, such as customer lists, trade names and technology, are valued and amortized over their estimated lives. Value is also assigned to acquired indefinite-lived intangible assets, which comprise trade names and trademarks, and goodwill that are not subject to amortization. An impairment is recorded when the carrying value of an intangible asset or goodwill exceeds its fair value. We believe that intangible assets represent costs

incurred by the acquired company to build value prior to acquisition and the related amortization and impairment charges of intangible assets or goodwill, if applicable, are not ongoing costs of doing business.

Gains and losses recognized on changes in the fair value of contingent consideration arrangements are accounting adjustments to report contingent consideration liabilities at fair value. These adjustments can be highly variable and are excluded from our assessment of performance because they are considered non-operational in nature and, therefore, are not indicative of current or future performance or the ongoing cost of doing business.

DEFINITION OF OPERATING METRIC TERMS USED

Direct Revenue - is revenue that is received directly from end users of our products and includes both subscription and à la carte revenue.

Indirect Revenue - is revenue that is not received directly from end users of our products, substantially all of which is advertising revenue.

Subscribers - are users who purchase a subscription to one of our products. Users who purchase only à la carte features are not included in Subscribers.

Average Subscribers - is the number of Subscribers at the end of each day in the relevant measurement period divided by the number of calendar days in that period.

Average Revenue per Subscriber (“ARPU”) - is Direct Revenue from Subscribers in the relevant measurement period (whether in the form of subscription or à la carte) divided by the Average Subscribers in such period and further divided by the number of calendar days in such period. Direct Revenue from users who are not Subscribers and have purchased only à la carte features is not included in ARPU.

OTHER INFORMATION**Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995**

This press release and our conference call, which will be held at 8:30 a.m. Eastern Time on May 9, 2018, may contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. The use of words such as “anticipates,” “estimates,” “expects,” “plans” and “believes,” among others, generally identify forward-looking statements. These forward-looking statements include, among others, statements relating to: Match Group’s future financial performance, Match Group’s business prospects and strategy, anticipated trends and other similar matters. These forward-looking statements are based on management’s current expectations and assumptions about future events, which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. Actual results could differ materially from those contained in these forward-looking statements for a variety of reasons, including, among others: competition, our ability to maintain user rates on our higher monetizing dating products, our ability to attract users to our dating products through cost-effective marketing and related efforts, foreign currency exchange rate fluctuations, our ability to distribute our dating products through third parties and offset related fees, the integrity and scalability of our systems and infrastructure (and those of third parties) and our ability to adapt ours to changes in a timely and cost-effective manner, our ability to protect our systems from cyberattacks and to protect personal and confidential user information, risks relating to certain of our international operations and acquisitions and certain risks relating to our relationship with IAC/InterActiveCorp, among other risks. Certain of these and other risks and uncertainties are discussed in Match Group’s filings with the Securities and Exchange Commission. Other unknown or unpredictable factors that could also adversely affect Match Group’s business, financial condition and results of operations may arise from time to time. In light of these risks and uncertainties, these forward-looking statements may not prove to be accurate. Accordingly, you should not place undue reliance on these forward-looking statements, which only reflect the views of Match Group management as of the date of this press release. Match Group does not undertake to update these forward-looking statements.
